**BRIEFING SUMMARY**

**Board Staff 2017 CVFPP Activities Update**

The review / integration, coordination, and update teams had their initial kickoff meetings to download information from DWR staff to Board staff. Bi-weekly meetings have been scheduled and placed on Board and DWR staff calendars as placeholders to meet and discuss issues, timing, review, and public outreach through anticipated adoption of the CVFPP update in June 2017.

Board staff will present a tentative schedule for the 2017 CVFPP Update and Supplemental Programmatic Environmental Impact Report (SPEIR). The schedule will reflect milestones and actions for the 2017 CVFPP Update, SPEIR, supporting documents, public outreach, and Board and DWR staff briefings to the Board.
