

Central Valley Flood Protection Board Meeting

INFORMATIONAL BRIEFING

RIGHT-OF-WAY AND REAL ESTATE SUPPORT TO BOARD
SSJDD Lease Update

(Thomas M. O'Neil, Department of Water Resources (Division of Engineering) on Special Assignment to the Central Valley Flood Protection Board) (DWR))

BRIEFING SUMMARY

Introduction

In 2015, the Central Valley Flood Protection Board (CVFPB) entered into an agreement with the Department of Water Resources (DWR) Division of Engineering (DOE) to allocate a DWR DOE Senior Right of Way Agent position (Agent) to the CVFPB. Pursuant to the agreement, the Agent is dedicated to solely support the management of Sacramento and San Joaquin Drainage District (SSJDD) properties, as directed by the CVFPB, conditioned upon funding allocation by the CVFPB and as defined by the CVFPB Work Plan between DOE and the CVFPB (Work Plan).

The goal of the Work Plan is to provide timely and cost effective real property services for current, past, and future CVFPB property management responsibilities including the management of the leases.
