

Meeting Date: 02/27/2015

Number of Applications Scheduled: 2

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
19002	Steve Chadaris	The project is located on the Garden Highway on the left bank of the Sacramento River, at the extension of Reigo Road in Sacramento.	Sutter	Sacramento River	To install approximately 465 feet of iron fencing around the property at 7999 Garden Highway.	Reclamation District 1000	The Board determined that the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small facilities.
8832-1	Department of Water Resources (DWR)	The project is located approximately 1.5 miles southwest of the town of Snelling and 1,050 feet downstream from the Snelling Road Bridge.	Merced	Merced River	To modify an existing stream gage on the left (east) bank of the Merced River Designated Floodway near the town of Snelling. Work includes: station house replacement, staff gage replacement, and bubbler replacement. The existing stream gage station was initially authorized by Automatic Board Order No. 8832.	N/A	<p>The Board, as a Responsible Agency under CEQA, has reviewed Initial Study, Negative Declaration (IS/ND) (SCH No. 2001071065, July 2001) and Addendum (April 2012) for the Stream Gaging Station Maintenance Project, prepared by the lead agency, Department of Water Resources. These documents including project design may be viewed or downloaded from the Central Valley Flood Protection Board website at http://www.cvfpb.ca.gov/meetings/2015/index.cfm under a link for this agenda item. The documents are also available for review in hard copy at the Board and DWR offices.</p> <p>An Addendum to the Adopted Negative Declaration was prepared to include modification of an existing stream gage. Board staff finds that although the proposed project could have a potentially significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. The project proponent has incorporated mandatory mitigation measures into the project plans to avoid identified impacts or to mitigate such impacts to a point where no significant impacts will occur. These mitigation measures address impacts to geological and biological resources, water quality and transportation.</p> <p>The documents and other materials which constitute the record of the Central Valley Flood Board's proceedings in this matter are in the custody of Leslie Gallagher, Acting Executive Officer, Central Valley Flood Protection Board, 3310 El Camino Ave., Rm. 151, Sacramento, California 95821.</p>
