Subject: Permit Application No. 18576, Encroachment Permit, Singh Unit Restoration Project, Bidwell-Sacramento River State Park

Dear Ms. Emami:

California State Parks, Northern Buttes District respectfully requests that the March 25, 2011 Encroachment Permit Hearing for the Singh Unit Restoration Project at Bidwell-Sacramento River SP be moved to a future date, preferably to the April 22, 2011 CVFPB Hearing for the following reasons:

1. District Superintendent Marilyn Linkem is unable to attend the scheduled March 25, 2011 Hearing. She is able to attend either of the Hearings scheduled for April 22, 2011 or May 27, 2011.
2. Hydraulic Engineer Tom Smith is able to attend either of the Hearings scheduled for April 22, 2011 or May 27, 2011. He is out of the country on March 25, 2011. His expertise is required to address questions regarding the Hydraulic and *Sedimentation* Analysis reports associated with the Singh Unit.

Thank you for your consideration.

Sincerely,

Laura Westrup
