

Meeting Date: 08/25/2017

Number of Applications Scheduled: 2

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
18790-1	Yocha Dehe Wintun Nation	The project is located on the right bank of Cache Creek near the Yocha Dehe Golf Club at the Cache Creek Casino Resort approximately 0.9 miles east of Brooks within the Cache Creek Designated Floodway.	Yolo	Cache Creek	To restore 440 linear feet of stream and riparian habitat along Cache Creek by constructing a stable, four bendway weirs, low-flow flood terrace planted with native willows and riparian vegetation; To repair and modify a 2012 bank stabilization structure immediately upstream, authorized under Permit No. 18790, by adding gravel, vegetation, and bendway weir on top of the existing structure.	N/A	The Board has determined that the project is categorically exempt from CEQA under a Class 33 Categorical Exemption (CEQA Guidelines Section 15333) covering small habitat restoration projects.
2641-1	City of Colusa	The project is located on the waterside of the west bank levee of the Sacramento River east of Roberts Road and north of 10th Street in Colusa.	Colusa	Sacramento River	To redevelop an existing day use and boat launch facility which will include: regrading, excavation and fill, construction of a two-lane boat launch ramp, piles and floating docks, parking area, a walkway, restroom, a fish cleaning station, an information/ticket kiosk, traffic signs, a 2-inch electrical conduit and ramp lighting, a 1-inch water service, and a 3-inch sewer pipe through the Levee.	Maintenance Area 1	<p>Board staff has prepared the following California Environmental Quality Act (CEQA) determination:</p> <p>The Board, as a Responsible Agency under CEQA, has reviewed the Initial Study, Mitigated Negative Declaration (IS/MND) (SCH No. 2012122063, December 2012) and Mitigation Monitoring and Reporting Program (MMRP) for the Colusa Boat Launching Facility Project, prepared by the lead agency, the City of Colusa (the City). The documents are also available for review in hard copy at the Board and the City offices. The City determined that the project would not have a significant effect on the environment on February 5, 2013, and subsequently filed a Notice of Determination on February 8, 2013 with the State Clearinghouse and Colusa County Clerk. Board staff finds the proposed project will not have a potentially significant effect on the environment because the City, as lead agency, has required mandatory mitigation measures that will mitigate all potentially significant impacts to less than significant. These mandatory mitigation measures have been incorporated into the project plans to avoid identified impacts or to mitigate such impacts to a point where no significant impacts will occur. These mitigation measures are included in the project proponent's MMRP and address impacts to air quality, biological resources, cultural resources, and hydrology. The documents and other materials which constitute the record of the Board's proceedings in this matter are in the custody of the Executive Officer, Central Valley Flood Protection Board, 3310 El Camino Ave., Suite 170, Sacramento, California 95821.</p>
