

Meeting Date: 06/24/2016

Number of Applications Scheduled: 10

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
14131-1	Gilbert Trust	The project is located on the left bank of the Sacramento River on the property at 1995 Garden Highway in Sacramento.	Sacramento	Sacramento River	To authorize an existing 18' x 28' covered single-berth floating boat dock with boat lift, attached to a 8' x 100' boat dock authorized under permit 14131.	Reclamation District 1000	The Board determined the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering existing facilities.
14689-1	Pleasant Valley Industrial Park Partnership	Located on the Mud Creek left bank levee near the State Highway 99 southbound lanes at north/northeast property corner.	Butte	Mud Creek	This is a name change permit for Encroachment Permit No. 14689. It was originally issued on June 18, 1987, to Pleasant Valley Ready Mix to install a 18-inch-diameter storm drainage outfall pipe, a 16-inch diameter force main pipe, and grouted riprap bank protection at both pipe outlets on the left bank of Mud Creek.	Butte County Public Works	The Board determined that the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering minor alterations to existing structures.
16375-1	Sherman Chan	The project is located behind the property at 678 Riverlake Way in Sacramento, CA.	Sacramento	Sacramento River	To authorize existing concrete steps and a post and chain handrail on the landside of the levee slope.	Maintenance Area 9	The Board determined that the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering existing facilities.
19040	Mark Edwards	The project is located along the Sacramento River on River Road, approximately 450 feet north of the intersection of River Road and 2nd Avenue in Walnut Grove.	Sacramento	Sacramento River	To install a boat dock with an enclosed slip; supported by four (4) 14" diameter steel pilings; a metal gangway supported by a concrete landing; a concrete ramp connecting the landing and gangway to a concrete landing near the levee crown; and trenching the levee crown to install a 12" diameter grouted steel carrier pipe that will house electric and domestic water conduits.	Reclamation District 3	The Board determined the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small structures.
19057	Beck Ranch	The project is located in Butte Basin approximately 0.5 mile south of Road 67 and 0.5 mile east of Road Z.	Glenn	Butte Basin	To install a row of solar panels mounted on galvanized pipes approximately 137 by 12 feet.	N/A	The Board determined that the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small facilities.
19058	Bird Haven Ranch LLC	The project is located approximately 1.1 miles south of Biggs Willow Road, East of Butte City.	Glenn	Butte Basin	To install a 33 row solar array system (31 rows at approximately 66 feet and the 2 rows at approximately 46 feet) mounted on galvanized steel posts and aluminum racking system, inverters, control boxes, and pad-mounted transformer.	N/A	The Board determined that the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small structures.
19058-1	Bird Haven Ranch LLC	The project is located approximately 1.2 miles south of Biggs Willow Road, East of Butte City.	Glenn	Butte Basin	To install a 31 row solar array system (each row approximately 66-feet) mounted on galvanized steel posts and aluminum racking system, inverters, control boxes, and pad-mounted transformer in Zone E of Butte Basin.	N/A	The Board determined that the project is categorically exempt from CEQA under a Class 3 Categorical Exemption (CEQA Guidelines Section 15303) covering new construction of small structures.
19080	River Partners	The project is located along the left bank of the San Joaquin River approximately 1.74 miles northeast of Grayson.	Stanislaus	San Joaquin River	To install a 14-inch diameter cone fish screen connected to an existing agricultural irrigation intake on the San Joaquin River.	Reclamation District 2092	The Board has determined that the project is exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering minor alterations to existing facilities.

Executive Officer Delegation Report

Meeting Date: 06/24/2016

Number of Applications Scheduled: 10

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
19085	Central California Irrigation District	The project is located approximately 17.5 miles east along Highway 152 and 3.5 miles south on Flanagan Road (Road 1).	Fresno/Madera	San Joaquin River	The project will install a 36-inch single wall reinforced concrete pipe from a turnout in the Poso Canal across the San Joaquin River where it will connect to an existing pump station and conveyance facilities. The pipeline will be installed in an open trench through the channel. The pipeline will be concrete encased under the San Joaquin River.	Lower San Joaquin Levee District	The Board, as a responsible agency under CEQA, has reviewed Initial Study/Mitigated Negative Declaration (IS/MND) (SCH Number: 2016021011, February, 2016) and Mitigation Measures for the Red Top Conveyance Project Water Year 2016-2026 Transfer and Exchange, prepared by Central California Irrigation District as the lead agency. These documents are available for review at the Board and Central California Irrigation District offices. The Central California Irrigation District determined the project would not have a significant effect on the environment and filed a Notice of Determination on May 25, 2016 with the County Clerk of Fresno. Staff finds that although the proposed project could have a potentially significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. The project proponent has incorporated mandatory mitigation measures into the project plans to avoid identified impacts or to mitigate such impacts to a point where no significant impacts will occur. These mitigation measures are included in the project proponent's IS/MND and address impacts to biological resources, air quality and hydrology. The description of the mitigation measures are further described in the adopted IS/MND.
7567-1	Roxanna Ray	The project is located on the property at 6292 Surfside Way.	Sacramento	Sacramento River	This is a name change permit only. Permit 7567, issued to William Grenz on September 24, 1971, authorized an existing fence, 10 oleanders, 1 peach tree, ice plant and stairway on the landside levee slope of the left bank of the Sacramento River.	Sacramento Maintenance Yard	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a "project" for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).
