Number of Applications Scheduled: 7

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
19106	CA Department of Water Resources	The project is located on the right bank of the San Joaquin River, on Twitchell Island, approximately 1.15 miles upstream Three Mile Slough.	Sacramento	San Joaquin River	To authorize an existing siphon pipe up and over the levee, and to install a new self-cleaning fish screen and access platform, part of the Sherman and Twitchell Island Fish Screen Project. The structure will be supported on a pile foundation.	Reclamation District 1601	<p>The Board, as a responsible agency under CEQA, has reviewed the Initial Study/Mitigated Negative Declaration (IS/MND) (SCH Number: 2016032007, March 2016) and Mitigation Measures for the Sherman and Twitchell Islands Fish Screen Project prepared by the Department of Water Resources as the lead agency. These documents including project design may be viewed at the Board and Department of Water Resources offices.</p> <p>The Department of Water Resources determined that the project would not have a significant effect on the environment and filed a Notice of Determination on April 15, 2016 with the State Clearinghouse. Staff finds that although the proposed project could have a potentially significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. The project proponent has incorporated mandatory mitigation measures into the project plans to avoid identified impacts or to mitigate such impacts to a point where no significant impacts will occur. These mitigation measures are included in the project proponent’s IS/MND and address impacts to biological resources, cultural resources, hazards and hazardous materials. The description of the mitigation measures are further described in the adopted IS/MND.</p>
19107	CA Department of Water Resources	The project is located on the right bank of the San Joaquin River, on Twitchell Island, approximately 1-1/2 miles upstream Three Mile Slough.	Sacramento	San Joaquin River	To authorize an existing siphon pipe up and over the levee, and to install a new self-cleaning fish screen and access platform, part of the Sherman and Twitchell Island Fish Screen Project. The structure will be supported on a pile foundation. 2554-1	City of Sacramento	through the North Levee at Pumping Plant No. 1, located approximately 300 feet west of the southerly extension of Canterbury Road in Section 69, Township Rancho Del Paso, County of Sacramento.	Sacramento	American River	This is a "name change" permit that includes conditions that are consistent with flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 2554 that was issued to American River Flood Control District on June 5, 1957 for the construction of a discharge pipe through the North Levee at Pumping Plant No. 1 located approximately 300-feet west of the southerly extension of Canterbury Road in the County of Sacramento.	American River Flood Control District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a “project” for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).

Executive Officer Delegation Report

Meeting Date: 07/22/2016

Number of Applications Scheduled: 7

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
5365-1	City of Sacramento	The project is located approximately 0.45 mile downstream of Elvas Freeway in the City of Sacramento.	Sacramento	American River	This is a "name change" permit that includes conditions that are consistent with flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 5365 and 5365-A, both issued to American River Flood Control District: Permit No. 5365 was issued on May 26, 1966 for the installation of two discharge pipes through the right bank levee of American River; Permit No. 5365-A was issued on September 20, 1968 for the addition of one new pumping unit and supporting structure together with a welded steel discharge pipe terminating in the existing headwall structure.	American River Flood Control District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a “project” for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).
5687-1	City of Sacramento	Levee mile 0.90 and 0.98, City of Sacramento, Section 2, T. 8 N., R. 4 E., MDB&M, Sacramento County,	Sacramento	Sacramento River	This is a "name change" permit that includes conditions that are consistent with flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 5687-A that was issued to State of California, Department of Public Works, Division of Highways on July 21, 1967 for the deletion of conditions fifteen and sixteen of Board Order No. 5687; Board Order No. 5687 was issued to State of California, Department of Public Works, Division of Highways on May 18, 1967 for the installation of three 30-inch diameter discharge pipes, concrete wall, and abandonment of two discharge pipes.	City of Sacramento	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a “project” for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).
5776-1	City of Sacramento	through the right bank levee American River, immediately upstream of Interstate 80 Freeway, levee miles 1.51 and 1.54, Unit No. 3, American River Flood Control District, Section 33, T. 9 N., R. 5 E., MDB&M, Sacramento County.	Sacramento	American River	This is a "name change" permit that includes conditions that are consistent with flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 5776 that was issued to American River Flood Control District on June 16, 1967 for the removal of an existing pumping plant, abandonment of two (2) existing discharge pipes, construction of a drainage pumping plants, and installation of six (6) discharge pipes.	American River Flood Control District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a “project” for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).
9596-1	City of Sacramento	placed in the slopes and crown of the left bank levee of the Natomas Canal at U.S.C.O.E. Station 335+75 +/- Section 23, T9N, R4E, M.D.B.&M. (American River Flood Control District) American River, Sacramento County.---Natomas Canal	Sacramento	.Not Specified	This is a "name change" permit that includes conditions that are consistent with flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 9596 and 9596-B, both issued to American River Flood Control District: Permit No. 9596 was issued on April 12, 1974 for the construction of a new pumping plant and installation of three 54-inch diameter steel pipes; Permit No. 9596-B was issued on April 24, 1979 to enlarge the pumping plant with a discharge pipe and appurtenances placed in the slopes and crown.	American River Flood Control District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a “project” for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).
