## **Executive Officer Delegation Report**

## **Meeting Date:** 02/24/2017

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
1740-1	Vine Acres, LP	The project is located at 15001 Highway 160, about 0.65 miles west of Isleton in Sacramento County, California,	Sacramento	Sacramento River	This is a "name change" permit only and includes conditions that are consistent with current flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 1740 issued to Victor Barofaldi on January 23, 1953 for the installation of a 12-inch steel siphon through the levee on the left bank of Sacramento River.	Brannan-Andrus Levee Maintenance District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a "project" for purposes of the California Environmental Quality Act (Public Res.Code § 21065; Guidelines § 15378(a)).
19109	DLM Partners	The project is located near Firebaugh Blvd where it crosses the Chowchilla Canal Bypass approximately 7.7 miles east of the City of Firebaugh.	Madera	Chowchilla Canal Bypass	To install a combination gate on an existing 4-ft x 5-ft box culvert structure (listed in the Lower San Joaquin River O&M Manual Pg. 55 - Irrigation and Drainage Structures Unit No. 17 LM 8.38) and elevated horizontal walkway to allow diverting of flood flows from the eastern bank of the Chowchilla By-Pass.	Lower San Joaquin Levee District	The Board, acting as the CEQA lead agency has determined the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering minor alterations to an existing structure.
2686-1	City of Chico	The project is located on the left (south) bank of Lindo Channel on Esplanade Road in City of Chico.	Butte	Lindo Channel	To authorize: a new interlocking concrete block gravity wall replacement for the collapsed concrete wing wall (existing feature of Permit No. 2686-A), engineered soil backfill, and rock slope protection. The proposed work was authorized to commence as an emergency repair on March 24, 2016.	N/A	The Board has determined the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering maintenance of existing facilities.
3284-1	Odysseus Farms	This project is located along the right bank of Feather River, approximately 0.5 miles north of the Highway 99 crossing in the town of Nicolaus.	<sup>r</sup> Sutter	Feather River	To remove and replace an existing 30-inch diameter steel pipe with a new 30-inch diameter 3/8-inch wall welded steel pipe, and to remove and replace an existing 20-inch diameter steel pipe with a new 20-inch diameter 3/8-inch wall welded steel pipe both connecting to an existing pump station on the right (west) bank of the Feather River. The previous Reclamation Board (now the Central Valley Flood Protection Board) issued an Order No. 3284 to Mr. T. H. Richards, Sr. on February 17, 1960 in connection with this permit which consisted of construction of an irrigation pumping plant and appurtenant facilities including both the 30-inch and 20-inch diameter steel pipes on the right (west) bank of the Feather River.		The Board has determined the project is categorically exempt from CEQA under a Class 1 Categorical Exemption (CEQA Guidelines Section 15301) covering maintenance or minor alteration of an existing facility.
