**Revised Notice of Intent to Adopt a Mitigated Negative Declaration****Central Valley Flood Protection Board
Sacramento County, California**

- Project Title:** Marysville Ring Levee Improvement Project – Phase 2A South & 2C (Project)
- Project Location:** The City of Marysville is located approximately 50 miles north of Sacramento, California in Yuba County and is surrounded by 7.5 miles of levee. These levees vary in height from 17 to 28 feet and protect the City of Marysville from flooding. Phase 2A South and 2C are located along the existing levee south of Twin Cities Memorial Bridge, north of the Yuba River, east of the Feather River, and west of J Street, 3rd Street, and F Street.
- Project Description:** The Central Valley Flood Protection Board (CVFPB) along with the U.S. Army Corps of Engineers (USACE) and Marysville Levee District (MLD) propose improvements to the Marysville Ring Levee (MRL). A previous Mitigated Negative Declaration (MND) was adopted in 2010 with the initial Environmental Assessment/Initial Study (EA/IS). Since 2010, additional design refinements have occurred, resulting in the need for a Supplemental EA/IS/MND. Construction of the Project is anticipated to take place in 2019.
- Public Meeting:** February 28, 2018 from 4 to 7 PM at Yuba County Government Center Marysville (915 8th Street, Marysville, California, 95901)

Following the requirements of the California Environmental Quality Act (CEQA), a Draft Supplemental EA/IS/MND has been prepared for this Project. The results of the Draft Supplemental EA/IS/MND indicate that mitigation measures would reduce all potential adverse impacts to less-than-significant levels. The CVFPB will consider adoption of the MND and approval of the Project during a regularly scheduled CVFPB meeting on April 27, 2018 at 9 AM located at:

Sacramento City Hall Council Chambers
915 I Street
Sacramento, CA 95814

REVISED: Comments on the Draft Supplemental EA/IS/MND will be accepted from February 16, 2018 - March 22, 2018.
