

Central Valley Flood Protection Board Conservation Strategy Implementation Advisory Committee Meeting

Where: CVFPB, 3310 El Camino Avenue, Sacramento, CA 95821
Suite 170, Room 112

When: Thursday, October 25, 2018, 9am – 12:00pm

Agenda

1. Welcome and Introductions

- a. Review Agenda. (5 minutes)

2. Regional Flood Management Plan White Papers

- a. Discuss the committee's comments on the Lower Sac-Delta North and Feather River RFMP white papers that were circulated to the group in September. (25 minutes)

3. Presentations

Presentations on both the Yolo and Sutter Bypasses - Presentations designed to address the following topics:

- What flood control and other issues are driving the need for operational, physical and maintenance changes/improvements within the Bypass?
 - What are the existing resource challenges (fish, wildlife, vegetation, recreation) within the Bypass?
 - What are the possible solutions and what would these solutions accomplish?
 - Which solutions are being worked on now?
 - What opportunities exist for increased recreation?
 - What opportunities exist for fish and wildlife mitigation and uplift?
 - What would these fish and wildlife opportunities accomplish – measured as habitat types or improvements for specific species?
 - How can solutions be combined to improve both flood management and resources?
 - Are we missing any opportunities?
- a. **Yolo Bypass** (Andrea Buckley – CVFPB, Doug Brown – Douglas Environmental, Ric Reinhardt – MBK Engineering)
(Presentation and group discussion – 60 minutes)
 - b. **Break** (15 minutes)
 - c. **Sutter Bypass:** (Meegan Nagy – RD 108, Brad Mattson - RD 1500, Michael Sabbaghian – DWR)
(Presentation and group discussion – 60 minutes)

4. Wrap up and Next Steps

- a. Discussion of future meeting schedule (15 minutes)
