

Wendy Valdez

Wendy has done exceptional work for the past year in support of the Board Staff in many capacities. She assists staff with basic IT needs which has helped staff get back to work faster without having to send in a help desk ticket. Without being asked, she has taken on the responsibility of the Board packets and assisted the Board clerk immensely. Knowing she has this process handled has allowed for many other deadlines to be met before a Board meeting.

Wendy has been a tremendous help with all the facility coordination on the JOC/Annex move for the Operations Branch. With her "can-do" attitude, she is willing to learn the process and take on the responsibility.

Wendy is a positive and a diligent employee; she has a heavy workload supporting the entire Board staff and keeps a positive attitude. She is always willing to help her co-workers and jumps in to help even when she has not managed a task or project in the past, she figures it out.

Wendy is deserving of special commendation. She juggles school and many work priorities while making herself available to assist her team with a multitude of tasks and requests.

With this award, the Board is pleased to recognize and thank Wendy for her dedication and service.
