

Meeting Date: 02/22/2019

Number of Applications Scheduled: 9

App No	Applicant	Location Description	County	Stream	Project Description	LMA Endorsement	CEQA Finding
17976-1	Michael Leschinski	The project is located at 3791 Garden Highway on the left (east) bank of the Sacramento River	Sacramento	Sacramento River	This is a "name change" permit only and includes conditions that are consistent with current flood control standards and policies of the Central Valley Flood Protection Board. This permit supplements Permit No. 17976-Rev. that was issued to Charles Lauria on June 21, 2006, to construct a 4,181 square-foot residence over the existing basement; construct a 5-foot deep, 12-foot wide, 35-foot long concrete swimming pool on the left (east) bank overflow area of the Sacramento River.	Reclamation District 1000	The proposed action is a name change and not a "project" pursuant to the Public Resources Code Section 21065 and CEQA Guidelines Section 15378(a) covering projects.
18897	Reclamation District 341	The project is located along the south side of Highway 160 adjacent to Horseshoe Bend, on Sherman Island approximately 7 miles northeast of Antioch, in Sacramento County.	Sacramento	Sacramento River	The proposed project includes installation of drainage features along the land side levee toe. The improvements include placement of filter fabric to stop embankment material migration, installation of a drainage system consisting of drain rock and outfall pipes to control seepage, and import of embankment material to buttress the levee system.	Reclamation District 341	The Board, as a responsible agency under CEQA, has reviewed Initial Study/Mitigated Negative Declaration (IS/MND) (SCH Number: 2013072034, July 2013) and Mitigation Measures for the Sherman Island SH 10-2.0 Highway 160 Levee Seepage Repair Project prepared by the lead agency, Reclamation District 341. These documents are available for review in hard copy at the Board and the Reclamation District 341 offices. Reclamation District 341 determined that the project would not have a significant effect on the environment on September 10, 2013, and filed a Notice of Determination on September 11, 2013 with the Sacramento County Clerk and the State Clearinghouse. Board staff finds that although the proposed project could have a potentially significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. The project proponent has incorporated mandatory mitigation measures into the project plans to avoid identified impacts or to mitigate such impacts to a point where no significant impacts will occur. These mitigation measures are included in the project proponent's IS/MND and address impacts to air quality, biological resources, cultural resources, transportation and traffic. The description of the mitigation measures are further described in the adopted IS/MND.
19151	Windswept Land and Livestock Company	The project is located on the waterside of the east levee approximately 1.4 miles southeast of Tyndall Landing and 5.1 miles west of Robbins.	Sutter	Sacramento River	To plant a walnut orchard from RM 100 to RM 102.66 (2.7 miles) along the left bank (east levee) of Sacramento River.	N/A	The Board determined that the project is categorically exempt from CEQA under a Class 4 Categorical Exemption (CEQA Guidelines Section 15304) covering minor alterations to land.
19164	A & K Bhatti Revocable Trust u/t/d 7/3/13	The project is located approximately 400 feet east of Live Oak Boulevard and south of the Union Pacific Railroad.	Sutter	Feather River	To remove existing walnut trees to provide a minimum of 50-feet clearance from the waterside levee toe; To authorize a water well, an irrigation system, and approximately 11 acres of walnut orchards within the right bank overflow area of the Feather River.	Levee District 1	Board staff has determined the project is exempt from CEQA under the Class 4 categorical exemption (CEQA Guidelines § 15304) covering minor alterations to land and under the Class 1 catergorical exemption (CEQA Guidelines § 15301), covering exisitng facilities.

19365	City of Ceres	The River Bluff Lower Terrance Project is located approximately 0.7 miles east of Mitchell Road north east of the town of Ceres on the left (south) overflow bank of the Tuolumne River Designated Floodway	Stanislaus	Tuolumne River	To construct three 20-feet by 13-feet pedestrian bridges, one 140-feet by 10-feet boardwalk/non-motorized boat ramp, one 15-feet by 15-feet viewing deck with attached 46-feet by 8-feet boardwalk and the creation of 1.9 acres of wetland habitat as part of the Tuolumne Trail Parkway. The project also includes demolishing the existing trail to install a new multi-use soil cement trail with fixed or removable bollards, landscaping with irrigation system, parking stalls and signage posts, picnic tables, and converting 17-acres of retired orchard to a stormwater basin.	N/A	<p>The Board, as a responsible agency under CEQA, has reviewed the Initial Study/Mitigated Negative Declaration (IS/MND) (July 2018), for River Bluff Lower Terrace Project, prepared by the lead agency, City of Ceres. These documents, including project design, may be viewed or downloaded from the Central Valley Flood Protection Board website at http://cvfpb.ca.gov/event/XXXXXXX-2019-regular-business-meeting/un a link for this agenda item. The documents are also available for review in hard copy at the Board and the City offices.</p> <p>The City determined that the project would not have a significant effect on the environment, and on July 11, 2018, filed a Notice of Determination with the County Clerk-Recorder. The City made revisions to the project and/or incorporated mandatory mitigation measures into the project plans to avoid impacts or to mitigate such impacts to a point where no significant adverse impacts will occur. These mitigation measures are included in the City IS/MND and address impacts to biological resources, cultural resources, geology and soils, hydrology and water quality, and noise. The mitigation measures are further described in the City's adopted IS/MND. In accordance with CEQA Guidelines Section 15096(e), Board staff independently reviewed the City's IS/MND, and finds these environmental documents prepared by the lead agency adequately address hydrology impacts, including potential flood risk, within the Board's jurisdiction. The Board, as a responsible agency, is responsible for mitigating and avoiding only the direct and indirect environmental effects of those parts of the project which it decides to carry out, finance, or approve (CEQA Guidelines § 15096(g); Public Resources Code § 21002.1(d)). In accordance with CEQA Guidelines Section 15096(f) and (g), staff recommends the Board make responsible agency findings that approval of Permit No. 19365 would not have a significant adverse impact and no additional mitigation measures within the Board's jurisdiction are required.</p>
6545-1	Greg Walker	The proposed work is located within the left (east) bank overflow area of the Sacramento River at Verona in Sutter County	Sutter	Sacramento River	To install a new water well at Verona Marina adjacent to the existing water well which will be properly abandoned. This permit is also a "name change" permit and includes conditions that are consistent with current flood control standards and policies of the Central Valley Flood Protection Board. This permit supplements Permit No. 6545 issued to Ms. Florence M. Baker on May 16, 1969, for the construction of boating facilities, ramps, campsites, recreational trailer sites, mobile home park, septic tank system, water well and three buildings.	Reclamation District 1001	Board staff has determined the project is exempt from CEQA under the Class 3 categorical exemption (CEQA Guidelines § 15303) covering new construction or conversion of small structures. In addition, the proposed action is a name change and not a "project" pursuant to the Public Resources Code Section 21065 and CEQA Guidelines Section 15378(a) covering projects.
6596-1	Jonathan and Milissa Smith	The project is located along the left (north) bank of the Sacramento River at 4237 Garden Highway, Sacramento, CA 95834.	Sacramento	Sacramento River	This is a "name change" permit only and includes conditions that are consistent with current flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 6596 that was issued to Mrs. Eleanor R. Virtue on May 20th, 1969 for the following features: To construct a single family dwelling on property, including well, septic tank and retaining wall between house and river.	Reclamation District 1000	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a "project" for purposes of the California Environmental Quality Act (Public Res. Code § 21065; Guidelines § 15378(a)).
7081-A-1	Casey Kelly	The project is located at 1870 Claremont Road along the right (north) bank of the American River.	Sacramento	American River	This is a "name change" permit that includes conditions that are consistent with current flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 7081-A that was issued to Mr. and Mrs. John B. Lewis on August 24, 1973, to add a septic tank and leach lines to dwelling on the right bank of the American River.	American River Flood Control District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a "project" for purposes of the California Environmental Quality Act (Public Res. Code § 21065; Guidelines § 15378(a)).

7081-B-1	Casey Kelly	The project is located at 1870 Claremont Road along the right (north) bank of the American River.	Sacramento	American River	This is a "name change" permit that includes conditions that are consistent with current flood control standards and policies of the Central Valley Flood Protection Board. This permit supersedes Permit No. 7081-B that was issued to Mr. John B. Lewis on December 21, 1973, to landscape the right bank levee berm, around the house on the American River.	American River Flood Control District	This action does not have the potential for resulting in either a direct physical change in the environment or a reasonably foreseeable indirect physical change in the environment and thus is not a "project" for purposes of the California Environmental Quality Act (Public Res. Code § 21065; Guidelines § 15378(a)).
