

Central Valley Flood Protection Board Workshop  
February 12, 2021

INFORMATIONAL BRIEFING

California Code of Regulations, Title 23, Waters, Division 1, Chapter 1, Articles 2 & 8  
Regulations Rulemaking

**BRIEFING SUMMARY**

**Background**

Board Staff and the consultant team from HDR will provide an informational briefing to the Board, stakeholders and the public relative to the rulemaking package submitted to the Office of Administrative Law (OAL) in November 2020 to update and modernize the Board's regulations for technical standards and definitions of flood control features and encroachments to State Plan of Flood Control facilities. The presentation will provide an overview of the objectives of the rulemaking, highlight the more significant changes to existing regulations, including the addition of a new section regulating pools, information on public comments received, and note the sections that were not updated in this rulemaking. The presentation will also include an opportunity for questions from the Board and public, a discussion by Board Staff on the impact the rulemaking will have on Board permitting, and next steps.

**Current Status**

The period to submit public comments to the OAL on the Board's rulemaking closed on Monday, January 11, 2021. Board Staff is preparing the final rulemaking package and anticipates presenting it to the Board for its consideration at the February or March 2021 regular Board Meeting. The final rulemaking package will be submitted to the OAL for publication once the Board approves the final rulemaking.
