1.0 – BACKGROUND

Since 2013, the Central Valley Flood Protection Board (Board) and its Local Maintaining Agency (LMA) and Flood Protection partners have submitted eight Letters of Intent (LOI) to develop and implement System-Wide Improvement Framework (SWIF) plans for 22 levee systems. Seven of the eight LOIs have been approved by the U.S. Army Corps of Engineers, and as a result 21 levee systems have been reinstated in the Public Law 84-99 Rehabilitation Program.
