

# **DROUGHT PREPAREDNESS AND WATER TRANSFERS BRIEFING**

*(William Croyle, DWR's Drought Preparedness Manager)*

## **BRIEFING SUMMARY**

Due to the nature of the extremely dry conditions Statewide, local, State and federal agencies are taking measures to inform the public, media and partners and be prepared to implement water conservation measures, respond to impacts and requests for mutual aid. The Department's Drought Manager, Bill Croyle, will provide an overview of current water conditions, the Governor's Drought Task Force activities and on-going coordination, preparedness and response activities and actions.
