TITLE 23, CALIFORNIA CODE OF REGULATIONS  
Administrative Permit Revocation: Adoption of Sections 28(d) and 28.1, Amendment of Section 5(a) and  
28(b) and Repeal of Section 5(g)

**NOTICE OF PROPOSED RULEMAKING**

The Central Valley Flood Protection Board (“Board”) proposes to adopt the regulation described below after considering all comments, objections, and recommendations regarding the proposed action.

**PUBLIC HEARING**

The Board did not schedule a public hearing on this proposed action. However, the Board will hold a hearing if it receives a written request for a public hearing from any interested person, or their authorized representative, no later than 15 days before the close of the written comment period.

**WRITTEN COMMENT PERIOD**

Any interested person, or their authorized representative, may submit written comments relevant to the proposed regulatory action to:

CENTRAL VALLEY FLOOD PROTECTION BOARD  
ATTENTION: SARAH BACKUS  
3310 EL CAMINO AVE., SUITE 170  
SACRAMENTO, CA 95821

Comments may also be submitted by e-mail to [sarah.backus@cvflood.ca.gov](mailto:sarah.backus@cvflood.ca.gov) or by fax to: (916) 574-0682. The written comment period closes on November 29, 2021. The Board will consider only timely received comments. When commenting, please indicate the proposed rulemaking action to which your comment refers.

**AUTHORITY AND REFERENCE**

Water Code section 8571 authorizes the Board to adopt these proposed regulations. The proposed regulation implements, interprets, and makes specific sections 8534, 8598, 8700 and 8702 of the Water Code.

**INFORMATIVE DIGEST**

Summary of Existing Laws and Effect of the Proposed Action

Existing administrative law regarding the revocation of encroachment permits that were previously issued by the Board is found in California Code of Regulations, title 23, section 28, incorporating the

procedural requirements contained in section 25. These rules require that whenever the Board wishes to revoke a previously issued permit it must hold an evidentiary hearing before the Board. Notice of this hearing must be made to the permittee thirty days prior to the hearing. The notice must contain a staff report and a proposed revocation order, both of which must also be served on the permittee thirty days prior to the hearing. Staff must prepare for a public hearing before the Board at a regular or special board meeting. These procedures are required whether the permitted encroachment was ever constructed, if it has been removed or abandoned and when the permittee wishes to surrender the permit.

The proposed action will streamline the revocation process in situations in which the permit is no longer needed or is no longer desired by the permit holder.

#### Objective and Anticipated Benefits of the Proposed Regulation

The objective of the proposed regulation is to streamline the permit revocation process in cases in which there is no opposition or controversy. It does not change the regulatory requirements for contested revocations. The benefits expected are that the Board's database of encroachment permits will be more accurate and Enforcement staff will be available for enforcement of serious violations of laws and regulations which protect the flood control system.

#### Evaluation of Inconsistency/incompatibility with Existing State Regulations

The Board determined that these proposed amendments are not incompatible or inconsistent with existing regulations.

#### **DISCLOSURES REGARDING THE PROPOSED ACTION**

##### The Board has made the following initial determinations:

- Mandate on local agencies or school districts: None
- Cost or savings to any state agency: None
- Cost or savings to any federal funding to the State: None
- Cost to any local agency or school district which must be reimbursed in accordance with Government Code section 17500 through 17630: None.
- Other nondiscretionary costs or savings imposed on local agencies: None.
- Cost impacts on a representative private person or business: The Board is not aware of any cost impacts that a representative private person or business would necessarily incur in compliance with the proposed action.
- Significant, statewide adverse economic impact directly affecting businesses including the ability of California businesses to compete with businesses in other states: None.

- Significant effect on housing costs: None.
- Small Business Determination. The Board has determined that the proposed regulation does not affect small businesses because no cost is imposed on any business or individual because of the implementation of these regulations.

## **RESULTS OF THE ECONOMIC IMPACT ANALYSIS/ASSESSMENT**

The Board concludes that it is unlikely that the proposal will eliminate or create jobs. The Board also concludes that it is unlikely that the proposal will eliminate or create any businesses. The Board does not anticipate that the proposed action will result in the expansion of businesses currently doing business within the State.

Benefits of the Proposed Action: The proposed action will benefit the health and welfare of California residents, worker safety, and the State's environment as it will streamline a procedure and allow Board Enforcement Staff to focus their attention on illegal encroachments thereby protecting lives, property, environment and infrastructure within the State's Central Valley from catastrophic flooding.

## **CONSIDERATION OF ALTERNATIVES**

In accordance with Government Code section 11346.5 subdivision (a)(13), the Board must determine that no reasonable alternative considered by the Board or that has otherwise been identified and brought to the attention of the Board would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provisions of law.

The Board invites interested persons to present statements or arguments with respect to alternatives to the proposed regulation during the written comment period.
